Slide with Senator Wolcott.
Upon an occasion some years ago a friend took Senator Wolcott for a drive in the suburbs of Leadville, and Wolcott expressed a suspicion that the horses were perhaps too frisky to be trustworthy. Thereupon the friend set about laming and lacerating Wolcott upon his excessive fidelity. Wolcott bore this badinage patiently, till presently they began to descend one of those steep, almost precipitous inclines in which Colorado roads abound.

"Will you let me drive?" asked Wolcott.
"Certainly," answered the other. But no sooner had Wolcott got the reins than he turned to his companion and said: "You have been shaming me for my fidelity. My turn has come. We'll see who equals first!"

With that he lunged the reins out over the horses' backs and began plying the whip furiously. The frightened horses dashed down the hill, swinging the buggy around curves and against bowlders in such wise as to threaten its descent. Wolcott continued to ply the whip and to shout at the maddened brutes. His friend clung, white and trembling, to his seat. It is a marvel that both were not killed. Finally the buggy was overturned, the horses broke away and Wolcott and his friend were left in a confused heap, with a broken arm, a sprained ankle and a dozen body cuts and bruises between them.

"Well, how do you like it?" asked Wolcott, gathering himself together and emerging nimbly from the debris. The other answered feebly but proudly, "I haven't squealed yet!"—Chicago News-Record.

made Bald by a Thunderbolt.
Mrs. Alexander Feldner, of Keokuk township, has miraculously escaped death from lightning. The house was struck, the lightning passing down the chimney, striking her and burning every hair from her head. The hairpins were cut in two. Her neck and chest were terribly burned and her clothing torn to fragments. Furniture and windows were broken and the walls of the building badly shaken. In a few hours, however, the prostrate woman showed signs of life and now has a chance of recovery.—Iowa Cor. Chicago Times

PARTISAN BIGOTRY.

The Harrison Anti-Silver Republicans of Storey county met in convention last Thursday and endorsed the principles enunciated by the Reno or Armory Hall convention held at Reno, September 1st, 1892. The resolutions favor the free coinage of silver at the ratio of 16 to 1, and declare that the Republicans of Storey county know that the cause of silver can be advanced only through the regular organization of the Republican party. The untiring efforts of Senator, John P. Jones, and of our Congressman, H. F. Bartine, in behalf of the remonetization of silver and in obtaining other legislation of interest to our people, is heartily appreciated and the nominees of the convention pledged to support H. F. Bartine for United States Senator from Nevada.

This is an example of partisan bigotry and injustice unparalleled in the history of Nevada. To assert that "we are unequalled in favor of the free coinage of silver at the ratio of 16 to 1," that "we know" that this can be accomplished only through the regular organization of the Republican party, only proves to thinking people that the Storey County Convention was controlled by bigots, blinded by partisan prejudice or fools, incapable of comprehending the spirit and language of the Republican National platform and the construction given it by Mr. Harrison in his letter of acceptance. The great services of Senator Stewart in the cause of free coinage are ignored by the blind zealots or idiots, who composed the convention. It is not disparaging to Senator Jones, whose efforts in the cause of free coinage some years ago won him encomiums from every friend of the debased metal in the Union, to say that for years Senator Stewart has at least endeavored to do as much for the remonetization of silver as any person in or out of the United States. He introduced a free coinage bill in the present Congress and secured its passage by the Senate, yet a partisan convention in a city whose very existence depends upon silver mining, studiously, presumably at the instance of Wall street, ignores this service in its platform, while commending the efforts of others, who, to say the least, did no more than he for the cause of silver.

But aside from its blind prejudice and injustice, see the inconsistency of the resolutions adopted by the Storey County Republican Convention. They favor free coinage at the ratio of 16 to 1, and know that it can only be accomplished through the regular organization of the Republican party, when the bill introduced in the Senate for free coinage at the ratio of 16 to 1, by the Senator whom they ignore, and passed by that body, received only eleven Republican votes in the Senate and eight in the House of Representatives. Do the anti-silver Republicans of Storey county think the people of Nevada are fools? Are they so enveloped in partisan prejudice that their vision as well as their intellect is clouded?

It has been asserted that the brains as well as the brawn of the people of Nevada have left the Wall street parties and are now making a manly and consistent fight for silver. The Republicans of Storey county prove the truth of the assertion, and on the Comstock only shifted, incontinent zealots are left to maintain the party organization.

The Denver Times, a Republican newspaper, but not a Harrison one, says: "Any silver Republican who casts his ballot for the Harrison electors admits by the act that he has not been sincere and earnest in his advocacy of the white metal. He is voting, as Senator Teller says, for his bitter and most unrelenting enemy."

The make believe friends of silver are as mad as wet hens because the real silver men have a State ticket in the field and are nominating legislative and local tickets in the several counties.

The Russ House.

Attention is directed to that famous and popular hostelry, the Russ House, Montgomery street, San Francisco, which has long been the headquarters for Nevada's visiting the metropolis of the Pacific Coast. It is now conducted by Young & Connolly, Colonel Young was formerly Captain of the Emmet Guard of Virginia City and is well and favorably known in Nevada. W. B. Dugan, well known in Reno, Carson, Winnemucca and, in fact, throughout the State, is cashier of the Russ House and will treat new friends as well as old courteously and hospitably.

TELEGRAPHIC NEWS

Matters of Interest From Home and Abroad.

To Be Deported.
SAN FRANCISCO, September 23.—The case of nineteen Chinese, who were illegally landed near Monterey, Cal., a few weeks ago by the smuggling schooner Halcyon, came up before United States Commissioner Sawyer to-day. It was agreed that only one of the Chinese, Lee Fong, should be sentenced, in order that a test case, bringing up the constitutionality of the Chinese Exclusion law might be established. After hearing the evidence Commissioner Sawyer sentenced Lee Fong to five days imprisonment at the end of which time he must be deported from the United States. A writ of habeas corpus will, however, be sued out for him. The other Chinese will remain in jail, pending the outcome of the trial.

No Trace of Evans or Sontag.
VISALIA, Cal., September 23.—Detective Thaxter and posse and Frank Burke with his Indian trail riders returned to this city to-day. They said there was too many men in the mountains to do effective work, and tracks on the trails misled the workers. No trace whatever has been found of Evans or Sontag, and Burke is of the opinion that the bandits have left the hills. A canvas of officers was held to-day in this city to determine on future plans of action. Burke and party again leave for the hills to-morrow.

At Witty, shot in the neck by the bandits at Young's house, states that Burke did shoot at Evans on that occasion and it was that that saved his (Witty's) life.

Official G. A. R. Order.
WASHINGTON, September 23.—Commander-in-Chief Wetzor of the G. A. R. to-day issued an official order assuming command of the Grand Army, establishing headquarters at Milwaukee, and directing that all official business should be addressed to Charles B. Gray, Adjutant General, Milwaukee. The Commander-in-Chief and staff called at the White House to pay their respects to the President, but as he was engaged with members of the cabinet, they left to come again some other time. The veterans are leaving the city. The convention of the Women's Relief Corps Auxiliary opened this morning.

Baggage of Passengers Ruined.
CAMP LOW, SANDY HOOK, N. J., September 23.—The baggage of the unfortunate Normandia's passengers unpacked to-day for the purpose of exposure to the sun and wind. It was discovered that all personal effects of every kind and description were utterly ruined in the process of disinfection by steam at Hoffman's Island. Silk dresses, lace, mantles, fur coats and other expensive clothing were found to be covered with a thick greenish mildew, completely ruining them. There were eleven hundred pieces of baggage. No new cases are reported in the Camp.

Simply a Scientific Exhibition.
PORTLAND, OR., September 23.—Jack Dempsey, Billy Smith, Billy Maher, Billy Hennessey, Gus Herget and Joseph Taylor, who were indicted yesterday by the Grand Jury for taking part in the Smith-Maher contest last Tuesday night at the Pastime Club, were all present in the State Circuit Court this morning for arraignment. Continuance till Monday for pleading was granted. The defense will interpose a demurrer on the ground of insufficiency of facts and that the contest was in no wise a prize fight, but simply a scientific exhibition.

Attempted Train Wrecking.
TRACY, CAL., September 23.—At 7 o'clock this evening a special freight train on the Newman branch of the Southern Pacific when a mile and a half from Tracy ran over a dynamite bomb. The explosion broke the headlight of the engine and glass in the cab. It is supposed the bomb was intended for the overland passenger train. A young man named Langdon, who lives near by, says he saw a man sitting on the track at the place the explosion occurred at 6 o'clock. Detectives are investigating the matter.

Allowed to Proceed.
LOS ANGELES, September 23.—An Ogilby special to the evening Express says a train detained there in quarantine last night has been allowed to proceed to Los Angeles. There were no cases of cholera and all the passengers were permitted to continue on their journey.

Thrashing Machine Explosion.
SPRINGSVILLE, CAL., September 23.—Davenport's thrashing machine blew up this afternoon seriously injuring James Lodge and John Roach.

Straight-out Silver Republicans.
The Harrison anti-silver Republicans of Storey county nominated the following ticket: State Senator, William Caulder; Assemblyman, Frank Folsom, Charles Randall, C. H. Pringle, Sam Dooling, Clarence Williams and E. A. Newcomb; Sheriff, J. H. Hubbs; District Attorney, E. D. Knight; County Clerk and Treasurer, W. H. Tully; County Recorder, H. A. Nye; Public Administrator, H. B. Fay; Commissioner, W. H. Pratt (long term); Milo McMillan (short term).

All the nominations were made by two or three persons, one man naming the Senator and six Assemblymen, and there was no balloting.

Removed.
The sample office of Wanamaker & Brown has been removed to the Fletcher building one door north of the Justice Court. The finest line of samples of ready made and tailor made clothing on exhibition. Prices lower than the lowest. Quality, etc. guaranteed in every particular. Call and inspect the goods. adit

The first number of the Wadsworth Dispatch is at hand. It is a neat, four-page, five-column paper published by the Dispatch Company every Wednesday and Saturday.

Senator Stewart will address the citizens of Storey county on the political issues of the day at Piper's Opera House, Virginia City this evening. The Senator is aggressive and handles the agents and emissaries of Wall street without gloves.

Hon. Theodore Winters invites everybody, regardless of sex, age, creed or politics, to the Pavilion this evening to partake of his cheese. He has over a ton of it on exhibition so that all can get a slice.

Senator W. M. Stewart will address the citizens of Washoe county on the political issues of the day at McKissick's Opera House next Tuesday evening, at Wadsworth on the 29th and at Verdi on the 30th. See official announcement in another column.

J. A. Blossom of Battle Mountain is taking in the Fair. Mr. Blossom has been prominent in Republican circles in Nevada, since Territorial days, but like sensible men of all parties who have the interest of the State at heart, he is now for Weaver and Field and the Silver ticket.

CHURCHILL COUNTY POLITICS.
Two Tickets in the Field for County Officers.

Churchill county Democrats nominated the following ticket: Assemblyman, Lem Allen; County Clerk, George Dyer; Sheriff, J. E. Higgins; Recorder, I. H. Kent; Treasurer, J. M. Sanford; District Attorney, W. C. Grimes; Commissioner, (long term) J. W. Allen; Commissioner, (short term) R. N. Brainin. The Republicans nominated A. N. Trolson for Assemblyman, J. W. Ferguson for Clerk; W. Dolton, Recorder; J. Ferguson, Treasurer; W. Murphy, District Attorney; Commissioner (long term) W. W. Williams; Commissioner (short term) William Harmon.

Still Growing.
A glance at the map of Powning's Addition shows that with but very few exceptions all of the most eligible lots have been sold. Along the entire river front, or Riverside Avenue, there are only three corners left, while on Second street there are but four that are not sold. People wonder how it happens, but Reno keeps on growing just the same, and those who are still hunting bargains should buy a lot in Powning's Addition while lots are yet reasonable.

For Over Fifty Years.
Mrs. Winslow's Soothing Syrup has been used by millions of mothers for their children while teething. It is distributed at night and broken up with cutting teeth, and at once gets a hold of the child. It is a relief to the poor little sufferer. It will relieve the poor little sufferer immediately. Depend upon it, mothers, there is no mistake about it. It cures Diarrhoea, regulates the Stomach, and cures Wind Colic, softens the Gums, reduces Inflammation, and gives tone and energy to the whole system. Mrs. Winslow's Soothing Syrup "for children teething" is the best and is the prescription of one of the oldest and best female physicians and nurses in the United States. Price twenty-five cents a bottle. Sold by all druggists throughout the world. Be sure and ask for "Mrs. Winslow's Soothing Syrup."

Benton's Liniment.
Which has been used in Nevada for over 25 years, is a panacea for man and beast. It operates like magic. It is an efficient remedy for rheumatism and is king of the world. No horseman and no family should be without a bottle of the medicine. It is for sale by all druggists. sep23:f

Hoskin's Orchestra.
Will give a series of dances at Armory Hall during Fair week, commencing this (Tuesday) evening. First class music will be in attendance, and good times are assured.

John Sunderland has a fine stock of French and English goods and is turning out some finely finished suits to order. His tailors are first class workmen.

Better Than a Savings Bank.
If you have faith in the future prosperity of the city of Reno, Nevada, invest in well located town lots and you will surely double your money in the next few years. If you cannot buy a lot yourself you can take stock in the Reno Real Estate and Investment Co., and participate in the investments that this corporation will make. The company propose to purchase centrally located property and erect suitable buildings thereon, obtaining immediate revenue from rents and receiving all benefits from increase in values.

To the Public.
As the fact that I was elected delegate to the Republican County Convention and been nominated by the People's party for the office of County Clerk has caused some comment, and places me in a false light before the people, I wish it understood that I was not aware that my name had been placed on the Republican ticket until the day of the primary election. I am a Weaver man and a member of the Washoe County Silver League.

Very Respectfully, O. EVANS. 1w

Dyspepsia

Makes the lives of many people miserable, and often leads to self-destruction. Distress after eating, sour stomach, sick headache, heartburn, loss of appetite, faint, "all gone" feeling, bad taste, coated tongue, and irregularity of the bowels, are

Distress After Eating
some of the more common symptoms. Dyspepsia does not get well of itself. It requires careful, persistent attention, and a remedy like Hood's Sarsaparilla, which acts gently, yet surely and efficiently, it tones the stomach and other organs, regulates the digestion, creates a good appetite, and by thus overcoming the local symptoms removes the sympathetic effects of the disease, banishes the headache, and refreshes the tired mind.

"I have been troubled with dyspepsia. I had but little appetite, and what I did eat distressed me, or did me little good. In an hour after eating I would experience a faintness, or tired, all-gone feeling, as though I had not eaten anything. My trouble, I think, was aggravated by my business, which is that of a painter, and from being more or less shut up in a room with fresh paint. Last spring I took Hood's Sarsaparilla— took three bottles. It did me an immense amount of good. It gave me an appetite, and my food relished and satisfied the craving I had previously experienced." THE STATE FAIR.

A Fine Day's Sport—Interesting Bicycle Races and a Lively Crowd.

An Excellent Speed Program—The Pavilion, the Exhibits and Snap Shots.

Reno is now in the height of a most successful fair week. It is seldom that so many favorable conditions exist in favor of this week. Fine weather has been the rule, large crowds have attended, the exhibits have been from disinterested jockeys, and money has been freely and liberally circulated. From a financial standpoint the fair has not only been eminently successful, but ahead of former years. During the week nearly all parts of the State have been represented by its prominent citizens. Each of the three days, Virginia, Reno and Carson, have been both pleasant and successful.

RENO BY NIGHT.

The track is the center of attraction during the day, but as evening approaches the center of activity shifts to Reno, where every form of excitement and amusement is to be found. Fairs of all variety flourish. The Salvation Army bids for patronage against the theater. The saloon, with the sound of siren music, calls the stranger in. Prize fights, races, politics, scraps, pool selling and a variety of gambling games keeps the interest till early morn. The town is a scene of Western life. It looks like and sounds like a veritable Credo. Fair week carries a sort of license to do as one pleases. The staid people forget their prudish behavior and get real giddy.

Reno is a Monte Carlo on a small scale. One gambling hall has every known game of chance, leaving no opportunity for a man to fail losing his money. Flutes, guitars, banjos, pianos, under the skillful manipulation of traveling and strolling musicians, serve to drive away sorrow and lighten the burden of the weary at the point of rocklessness. Fair women deal cards, rough men bet their money. The dealers, with distinguished respect, accommodate the looker-on how to lose his money. Wheels of fortune turned the cash from the pockets to the game table. A rather complex combination by the name of "craps" gave the better the financial craps. Speaking of gambling, roulette may do for ducks, counts, lords and fair women, but the Westerner who has spent all his life among the whole-souled hospitality of the West still clings with the traditional tender use of the fair. The game table was piled mountain-high with checks, red, white, blue, black and yellow. Money was bet without stint. The roulette table, a concern much more ornamental than useful, has a fascinating influence on the devotees of game fortune. At least a dozen young men in town are on the verge of insanity trying to study up a system which will bust the bank. It takes some time to perfect a system and also practice, not to speak of the small fortune it takes to test the feasibility of getting something for nothing on a ratio of 35 to 1. A few will have the next year to ponder over that dardard peculiar concern with its whirling wheel which has made paupers millionaires, broke princes and sent thousands of unhappy mortals to an untimely suicide's grave. Young men, gambling is a flit and coquet, whose fascinating ways blind more dangerously than love. In fortune she smiles on you, in adversity she deserts you. Beware!

CARSON DAY.

Yesterday was Carson day. It was all that could be desired. The morning was charming, but Aurora, gently sighing, became unmanageable toward evening and covered the crowd with particles of real estate.

Carson always turns out a large crowd of distinguished men. The State Government was represented by our popular and handsome Governor, who is always the center of a pleasant group of friends. Secretary of State Grey, Attorney General Torreyson, State Printer J. W. Eckley, State Superintendent of Public Instruction Ring and Congressman Bartine.

Reno was early alive awaiting with a cordial welcome the expected crowd, which arrived at 9:55 on the special fair train. Five well loaded coaches came rolling in and distributed a large crowd of handsome ladies and gentlemen from the capital city upon our city. The Carson contingent are a wide awake lot and are always a welcome group to the pool buyers. As a result of the increased interest in the fair and the Carson people, with additions from the eastern part of the State, the crowd was swelled into numbers far in excess of any previous record for the week past for years. The crowd hastened to the track. Every bus was loaded from bed to top and fairly flew with their loads. The crowd all got out to the grounds early and soon all vest age points were occupied by those interested in the bicycle races.

THE BICYCLE RACES.

They took place promptly at 10 o'clock. The first event was for the State championship, one mile. The entries were Wilson, Brown and Lowers. They made a good start, Wilson took the lead and at the half mile was a good distance ahead. Brown gained slightly, with Lowers last. Wilson soon increased the space between himself and the others, and came in on the home stretch an easy winner, making a fine race. Wilson looks like a part of his machine, so

perfect is the movement and pose of his body. He assumes one position and maintains it. He is a fine bicyclist.

The second event was the 100 yards slow race, which was the source of much merriment, took place next. The entries were Howard Mulcahy, Chas. Lowers, Joe Durkin, Chas. Lake, Edward Lockman, S. W. Pindler and James Henry.

It was a standing start. The first start resulted disastrous for all the safety and in their eagerness to mount they all failed. They made a start at the second trial. Dink fell out first followed by Lowers, Lockman, Henry, Pindler, Mulcahy, with Charles Lake last. He made a splendid race. He moved along in a dreamy unconcerned fashion and came in a very easy winner. He showed considerable skill in the manipulation of his wheel. Time 2:13.

The next event was a quarter mile standing start, with the following entries: Harry Brown of Carson and Griswold of Reno. It was a closely contested race and won by Brown of Carson. Time 0:43.

The fourth event, the three mile run, was declared off on account of the wind. This ended the morning sport.

The crowd separated for lunch and indulged in discussions of politics and the coming afternoon races. The Carson contingent infused a certain amount of political activity into the crowd and considerable hooch was indulged in. The intermission only served to swell the crowd which by the time the races began was larger than has been witnessed for years at the track. The grand stand was literally jammed. Few men being present, the grand stand being occupied by ladies and children. It presented a pretty and animated picture of beauty. The ground around the pool boxes was crowded to its utmost capacity with men, who were either trying to retrieve losses or add to their present gain. The Carson boys are sports and can do more betting with as careless and unconcerned air as a Reno crowd would do in a week. They infused new life into the gaming and are expert turfdogs for they seldom failed to miss the favorite and were always certain of a short and keeling.

THE AFTERNOON EVENTS.

The first on the programme was the chariot race which had created so much interest the day before. The appearance of the blue and pink robes and red chariots put the audience in an expectant attitude. It was an exciting contest, and before they had cleared the three-quarter post the entire grand stand was a mass of craning necks. Fans, handkerchiefs and parasols were waving. It was like a chopped sea. Kaleidoscopic in appearance. "The Blue." "The Pink." "Aint she lively!" "O. my!" "There she comes," filled the air. The murmur of voices blended in a continuity of adjectives ejaculated with all the fervor that girlish voices possess. The Pink came in ahead and all were pleased, for it mattered little which won for the winner gets all the womanly sympathy in the grand stand.

THE FIRST RACE.

The first race was a special running, 4 1/2 furlongs, \$250. The entries were Oentella by D. O'Keefe, ridden by Sullivan; Frank Evans by M. T. Walters, ridden by Spooner; Ida Glen by S. F. Stables, ridden by Cooper; Jack the Ripper by G. W. Watson, ridden by Clancy. Pools sold with Ida Glen as the favorite. She has a good hold on the crowd. Jack the Ripper, who established himself in the favor of the better by his Thursday record, came next. Oentella sold 5 to 1, with Frank Evans 15 to 1. They got a good start. Ida Glen came in a winner. Cooper, her rider, swinging his whip victoriously while he looked over his shoulder with a smile of derision lighting his handsome face at those who valiantly and unnecessarily urged their horses on to a defeat. Time 0:57.

The second event was the running stake, 7 1/2 mile, 3-year-old, \$200 Added. Only two of the four named to start came to the scratch. They were Martinet, entered by H. Willis, ridden by Sullivan, and Alliance, entered by E. Bally and ridden by Nicolas Martinet, who has been a winner all week, still held the confidence of the crowd as the favorite and sold with great odds against Alliance. They are both good horses at their best. The pools piled up. The short-enders piling in their cash with great confidence. "Away they go." The crowd watch eager. A thousand opera glasses point toward the best racers and followed them in their closely contested race. Martinet looked the Cad. He is a trim runner. Alliance was liberally lashed, but failed to get there. Time 1:33 1/2.

The crowd that lined the fence fell back to the pool boxes, and the short-enders heaved a sigh and hoped for better luck next time.

THE GREAT RACES.

In the meantime three handsome horses decked in blue and gold ribbons appeared on the ground. The bell rang and all eyes were turned to the grand stand. Those who are well versed in the ways of the orator and politician knew as they looked on the familiar figure and handsome face of C. O. Powning, Nevada's peerless orator, that he was shortly to make a speech. He removed his hat and mounting the stand, faced the crowd and in a clear, resonant voice that reached with its silvery tone every part of the ground announced the presence of the three greatest horses of the United States, El Rio Ray, Joe Hooker and the famous brook mare, whose colts are world-wide known. He made one of his neat, pretty and brief speeches of which he is a perfect master. Neither too long nor short, yet suited to the occasion.

Following came the third event which was the special running handicap, 7 1/2 furlongs; purse, \$250. Three entered. Vanity owned by M. T. Walters, ridden by Evans; Borealis, owned by R. W. Curtis and ridden by Clancy; and Joe Harding, owned by W. A. Gilson and ridden by Sullivan. From the way pools sold it was evident that Joe Harding had the dead mortal clinch on the race. The bookmakers wanted 8 to 1

on him, but offered 6 to 1 on the others. Again the short-enders planged, wish that ever vanishing hope that it is a cold day when the favorite does not occasionally lose. Pools sold liberally. The wind shifts, curiously and menacingly, hurrying and swirling around the corner ladies with disagreeable dash. The riders rein their horses into position, they wait, start, each waiting for a slight advantage. Much to the relief of the over-impatient crowd they get started at last. There is the same blinding of pretty colors, the same craning of necks, standing on seats, crowding of men, "O's" and "A's" from the grand stand and other effervescent manifestations of delight so peculiar to the feminine portion of the crowd. In the meantime Evans, Clancy and Sullivan bend eagerly over the horses necks urging, coaxing, scolding, patting and leading them by turns. The short-enders feverently pray for the unexpected. They keep well together. Daylight cannot be seen between them. They run neck and neck. They shift positions. At the three-quarter post one falls behind. The crowd yell. They fly down the home stretch. A perfect about-face. The unexpected happens. The short-enders are happy. They have won. Those who had "straight ups" are richer by having the inside. The pools pay 8.35 for 3. Time 1:38.

The next event was the fourth. It was the running 3/4 mile, \$250. Entries: R. H. by A. Y. Stevenson, ridden by Cook; Mackey, by F. P. Lane, ridden by Spooner; Malcolm, by H. D. Brown, ridden by Weber; Ida Glen, by S. F. Stables, ridden by Cooper.

Ida Glen was the favorite, with R. H. second, Mackey third in the pools. It seemed to be a hard race to guess as at least three of the horses had a good hold on the confidence of the better. Malcolm failed to start for some reason and it left the contest between Mackey, Ida Glen and R. H. It was another exciting contest. The men chewed picket, the ladies bet caramels and the short-enders set on another howl. It was a close call though. They came down the home stretch neck and neck and R. H. spurted in the last fifteen yards and kicked dirt in the eyes of his pursuers. The bookmakers figured up their losses, the Paris mutuels paid a handsome profit and everybody looked happy.

The next event was a trot, 2:20 class; purse, \$250; entries: Frenchy, by W. Ober, driven by Ober; Chloee, by T. C. Snyder, driven by Snyder; Victor, by G. O. Doherty, driven by Doherty; Maud H., by J. H. Harris, driven by Harris. The pools sold as follows: Victor 30; the field sold for 19 against 30.

The first heat was won by Frenchy, Victor second, Maud H. third. Time: 2:39 1/2. The second heat was by far the closest of the day, Chloee winning by less than a head, Victor second, Frenchy third. Time: 2:41 1/2. In the third heat Frenchy came in first, Victor second. Time, 2:39. In the fourth heat Frenchy broke very badly and the trotters were contented. At the outcome however Victor and Chloee pulled in head and head and the judges declared it a dead heat.

In the fifth heat Frenchy, who was selling favorite all the time throughout the race and who had already won two heats, broke several times on the course and was shut out, Chloee coming in first and Victor second. Time, 2:38 1/2. At the end of this heat darkness coming on the judges declared that the race would be finished between Chloee, Victor and Maud H.

The special trotting 2:30 race was sandwiched in with the 2:20 class. The first heat was won by Pasha, Robert L. second, Wapple third. Time, 2:36.

In the second heat Robert L. came in first, Pasha second.

In the third heat Robert L. came in an easy winner in 2:32, Pasha second, Wapple third.

The fourth heat was won by Robert L. Pasha second. Time, 2:33. This also won the race for Robert L.

AT THE PAVILION.

The Pavilion during the closing days of the fair is always an object of great attraction. The careful and painstaking labor of the ladies has made it a most gratifying success. In the mention of ladies the other day the names of Mrs. M. D. Foley, Mrs. F. G. Newlands, Mrs. Babcock and Mrs. O. H. Perry were inadvertently omitted. They worked unceasingly as did the others whose names have been mentioned for the success of the display in the pavilion, contributing both time and valuable exhibits. It must be a pleasure to them all to see the work so successful. The sweetest returns and reward that can be given is the consciousness of having been successful and knowing that the many compliments tendered are genuine and deserved.

The pavilion was a scene of splendor, the exhibits, the crowd, the ladies with their pretty evening co-tunes all make up a general effect that was pleasing and attractive.

THE CONCERTS.

The music is one of the attractive features of the evening. The Fredrick's Orchestra is equal to any on the coast. They are faithful, painstaking and ambitious. Born musical artists they produce the sweetest melodies and the latest music produced. The piano used by the orchestra is one belonging to the exhibit of Mr. Hodges. It is a Colby and a fine toned instrument. Mr. Hodges representing Spencer and company of San Francisco has an exhibit which cost him not only time and labor but money to make. He has five pianos and two organs. The collection is well worthy an inspection by music critics.

THE COMMITTEES.

Committees have been appointed and are now at work making the awards. A full list of premiums will be published as

THE LOWER FLOOR.
The lower floor presents the same attractive features, flowers, fruits, jellies and all the sweets imaginable. The most important exhibit is the one made by the EXPERIMENT STATION.

A close inspection of the display made by the Experiment Station develops a great amount of information concerning the possibilities of the State. The exhibit is a large and varied one, containing every variety of cereals and vegetables. The question of agriculture and what Nevada is capable of doing is well illustrated by object lessons in the Station. For years a people often live in ignorance of the real fertility of their country and often overlook the fact that valuable cereals, vegetables or fodders can be grown. Experiments and experience only can illustrate practically the results of agriculture. The object of the Station is to experiment and investigate scientifically the capabilities of the soil and those climatic conditions best suited to certain vegetable life. If any one thinks Nevada has not an agricultural future let him examine carefully the exhibits of the Station. Among the most prominent are fifty-six varieties of grain. Among the interesting varieties are specimens of hullless oats, which could be turned into an excellent quality of rolled oats. There is also a fine variety of Polish wheat. These varieties are represented both in the bunch and stalk and in the kernel. The bunches are represented in a very artistic manner and are among the prettiest exhibits in the fair. The corn exhibits are of an endless variety; one sample is eleven feet high. Hemp, flax and sorghum, specimens of buckwheat and millet, with bunches of alfalfa, reed and other fodders are included in this line. The potatoes are fifty-six in number of varieties; all fine, large specimens. Tomatoes, cucumbers, melons, squashes and all the common vegetables are well represented. It shows what science linked with practicality may do for us. The fact that Nevada is a desert is aptly refuted in this surprising object lesson of her resources in this important line. The work is under the charge of Professor McDowell, who has efficiently and faithfully produced wonderful results. He is both scientific and practical. His work is of great value to the State, and the Station will yet be the means of pointing out those paths which will lead us on to a position of wealth and unbounded developed resources.

INSECTS.

In connection with the work of the Station Professor J. H. Hillman has a fine collection of destructive insects and fruit pests. These he has represented in their very work of destruction. Plants upon which they are at work are placed before the people for inspection. Much valuable information is thus given the farmers who take the time to investigate this line of work.

TESTS.

Under the charge of Professor N. E. Wilson and Professor Stadtmuller each evening there is conducted a series of experiments in sugar beets and in milk. The work is done in an admirable manner. The days of the crude rancher will soon be over. The question is now how can we produce the greatest results with the least expenditure of time and labor. The farmer must look to the scientific side and no longer trust to nature, but aid nature if he would best succeed.

There are many other interesting features on the lower floor of the Pavilion, of which probably the flower display is the best and prettiest.

THE FIFTH DAY.

The day was everything that could be desired and no one but felt the better for the day's enjoyment. To-morrow promises to be equally good.

TO-DAY'S PROGRAMME.

Running, 3/4 mile—Dawdrop, Charger, Joe.

Special Running, owner's handicap, 6 1/2 furlongs—Mackey, Tom Stacy, Vanity, Democrat and Little Mills.

Special Running, maiden's, 7 1/2 mile—Little Tough, Nelson, Red Rose, Trumbo.
